

At Blue Planet Foundation,
we envision a prosperous,
sustainable future

fueled by Hawai'i's natural

energy sources.

Energy puts life into motion,
and the energy we put in
determines how far we can go.

Now is the time: Blue Planet is
moving Hawai'i beyond oil —

toward a future

*"Stewardship...
It means living with the
constant reminder that our
actions occur in context of other
people over generations."*

—Blue Planet Board Member
Hon. George Ariyoshi
